
Monster Cupcakes

Sendik's Fine Foods

Internet Address: Access our online cookbook at www.sendiksfinefoods.com

2 dozen cupcakes from your favorite recipe
1 (3.4 ounce) box vanilla-flavored instant pudding
green food coloring
Dolce Frutta White Shell (tinted green)
24 large marshmallows
skewers
M&M's Minis
chocolate frosting
black decorator's gel
48 green Tic-Tac mints

Bake and cool 2 dozen cupcakes from your favorite recipe. Prepare a 3.4-ounce box of vanilla-flavored instant pudding. Stir in drops of green food coloring until you have a shade you like and place it in the refrigerator to chill.

Next, microwave Dolce Frutta according to package directions; tint with green food coloring. One at a time, spear 24 large marshmallows with a skewer and roll them in the melted candy, coating the sides. Set them on a waxed paper lined baking sheet, add M&M's Minis for eyes and place them in the refrigerator to chill.

With a small serrated knife, remove a 1-inch wide chunk from the center of each cupcake. Fill each hole with a tablespoon or so of the pudding and then spread chocolate frosting around each pudding hole. Cover each pool of pudding with a chilled marshmallow. Add black gel facial features and 2 green Tic-Tac mints for bolts. Finally, top each monster head with a bit of frosting and muss with your finger or a fork. Keep the cupcakes chilled until serving time.
