Reception flowers will enhance the mood of the celebration and carry out your theme. You can have simple mounds of mixed flowers or extravagant pedestal arrangements that tower over your guests. Keep in mind, whatever arrangements you choose, they must be designed so they don't impede conversation and are to scale with the size of the table. Another popular reception element is to have a sweet table or candy buffet.

Whether your wedding ceremony will be held in a church, synagogue, historic house, hotel ballroom, or a home, flowers will enhance the setting. Wherever it is held, it should be decorated to welcome and celebrate!

There are many people who help out with your special day. What better way to say, "thank you" than with flowers! And for the groom, say "I love you" by having a small version of the bride's bouquet or the centerpiece from your wedding put into a vase for your first anniversary.
